

Table 1) Distribution of relative and absolute frequency (numbers in parentheses are percentages) of the mortality and survival rate of preterm infants based on birth weight (138 people)

Birth weight (g)	Mortality rate	Survival rate	No.
700>	13 (72.2)	5 (27.8)	18
700-1000	9 (22.5)	31 (77.5)	40
1000-1500	8 (10)	72 (90)	80

Table 2) Distribution of relative and absolute frequency (numbers in parentheses are percentages) of the mortality and survival rate of preterm infants based gestational age (138 people)

Gestational Age (Week)	Mortality rate	Survival rate	No.
26>	18 (54.5)	15 (45.5)	33
26-28	8 (22.9)	27 (77.5)	35
28-30	3 (8.8)	31 (91.2)	34
30-32	-	17 (100)	17
32<	1 (5.3)	18 (94.7)	19
Total	30 (21.7)	108 (78.3)	138
