Table 3) Primary codes extracted according to the number of references

| Pivotal Coding	Pivotal Codes Components (Open Codes)		Number of References
Perceptual	Convenience		14
	Sense of place		4
	Legibility		7
	Sense of belonging		4
	Identity		7
Visual	Balance		10
	Appropriateness		10
	Human scale		9
	Consonance		15
	Heterogeneity		10
Structure	Topography Climate comfort	Natural	23
	Relation of space with other spaces Space skeleton	Artificial	16
Service	Security		6
	Safety		6
	The consonance of infrastructure and Urban services		5
	The efficient economy feasibility studies Project efficiency Local experiences (business boom) Resource capacity Land price Project costs	Economic factors efficiency	36
Function	Access hierarchy All inclusion	Access and transport	23
	Land use intermixture Activity timing Activity type	Land use and activity	21

**Figure 2)** codes and sub-codes of the component "imagination"

Figure 3) codes and sub-codes of "activity"

Figure 4) codes and sub-codes of the component "structure"
