

Table 1. The mean scores of the psychological capital and its components, the sense of coherence and caregiver burden in the amputee veterans' wives (120 subjects)

Variables	Values
Psychological capital	
Self-efficacy	24.41±3.45
Resilience	22.59±3.91
Optimism	24.89±3.21
Hope	22.79±3.44
Total	83.44±9.80
Psychological sense of coherence	
Total	49.21±8.66
Care burden	
Total	8.79±2.46

Table 2. the correlation matrix of the caregiver burden with the sense of coherence, and psychological capital and its components and in the amputee veterans' wives (120 subjects)

Variables	1	2	3	4	5	6
1- Total care burden	1					
2- Self-efficacy	-0.37**	1				
3- Resilience	-0.36**	0.52**	1			
4- Optimism	-0.27**	0.55**	0.56**	1		
5- Hope	-0.21*	0.30**	0.49**	0.54**	1	
6- Psychological sense of coherence	-0.28**	0.40**	0.43**	0.40**	0.34**	1
