

Table 1) Correspondence between the Learning Sensory Preferences in the Medical Students of Isfahan University and the Technologies Selected by the Teachers

Variables	Statistic	P Value
Correspondence between Reading/Writing Style and the Selected Technologies		
Samerz Coefficient	-0.194	0.091
Kendall Coefficient	-0.183	0.087
Gamma Coefficient	-0.306	0.139
Correspondence between Visual Style and the Selected Technologies		
Samerz Coefficient	-0.012	0.05
Kendall Coefficient	-0.013	0.04
Gamma Coefficient	0.020	0.05
Correspondence between Kinetic/motion Style and the Selected Technologies		
Samerz Coefficient	-0.017	0.115
Kendall Coefficient	-0.013	0.088
Gamma Coefficient	-0.033	0.224
Correspondence between Auditory Style and the Selected Technologies		
Samerz Coefficient	-0.118	0.061
Kendall Coefficient	-0.111	0.057
Gamma Coefficient	-0.186	0.094
