

Table 1) Comparison of mean scores of morale, happiness and hope to life in the families of martyrs and veterans based on the variables of gender, marital status, generation difference, and family members (n=593)

Variables	Number	Morale Score	Happiness Score	Hope to Life Score
Gender				
Female	359	25.16±5.67	69.59±16.99	108.67±24.97
Male	234	26.17±6.53	72.19±17.20	111.88±23.93
Significance Level	-	0.04	0.07	0.22
Marital Status				
Single	127	25.52±5.97	70.11±17.40	111.78±26.50
Married	466	25.57±6.07	70.75±16.03	109.09±23.94
Significance Level	-	0.94	0.71	0.27
Generation Difference				
Old Generation	375	24.90±5.42	69.17±16.74	107.50±23.90
New Generation	218	26.68±6.85	73.09±17.47	113.39±25.32
Significance Level	-	0.001	0.007	0.005
Family Members				
Veterans	132	24.68±5.65	70.43±16.98	107.95±24.24
Veterans' Wives	156	25.46±5.74	70.18±16.30	108.83±25.90
Veterans' Children	143	27.62±7.44	74.28±16.87	116.07±21.89
Martyrs' Wives	87	24.24±4.32	65.44±16.82	104.40±23.09
Martyrs' Children	75	24.90±5.12	70.81±18.46	108.23±26.70
Significance Level	-	0.0001	0.005	0.005

Table 2) Correlation coefficient between age, income, education level, attitude toward exercise, amount of study, religious commitment, social support, and the level of acceptance of the place of sacrifice and martyrdom with the level of morale, happiness and hope to life in the families of warriors and martyrs (n=593)

Variables	Level of Morale	Level of Happiness	Level of Hope to Life
Demographic Characteristics			
1- Age	**-.015	**-.0107	**-.0114
2-Level of Income	0.04	0.03	0.07
3-Level of Education	0.06	0.04	0.009
Tendency to Exercise			
1-The tendency to exercise due to the role of environment and surrounding people	0.06	0.07	*0.082
2-Tendency to sport due to the role of culture and media	**0.12	*0.09	0.08
3-Tendency to exercise due to its role in health	**0.12	**0.17	**0.22
4-Tendency to sport due to filling the leisure time	*0.10	**0.16	**0.19
5-General tendency of the person to exercise	**0.18	**0.22	**0.25
Level of Study			
1-The habit of studying and going to library	**0.35	**0.11	**0.11
2-The motivation to study and go to library	**0.30	0.07	0.06
3- Time division for studying and reading	**0.60	*0.10	0.02
4-Popularity of reading and library	0.05	*0.09	*0.08
5-Overall desire to study	**0.36	**0.16	**0.12
Religious Commitment			
1- Doing obligatory acts	**0.15	**0.14	**0.11
2-Doing recommended acts	**0.16	**0.11	*0.10
3-Religious activities	**0.17	**0.12	*0.09
4-Considering religion in decision making and choices	**0.16	**0.13	**0.13
5-Overall commitment to religious acts	**0.26	**0.20	**0.17
Social Support			
1- Social support from family	**0.37	**0.47	**0.16
2- Social support from friends	**0.20	*0.09	**0.15
3-Social support from others	**0.28	**0.16	**0.14
4-Overall perceived social support	**0.40	**0.11	**0.22
The Rate of Acceptance of the Place of Sacrifice and Martyrdom			
1-Dimension of belief of attitude toward sacrifice and martyrdom	0.06	**0.16	0.05
2-Behavioral dimension of attitude to sacrifice and martyrdom	0.06	**0.20	**0.11
3-Emotional dimension of attitude to sacrifice and martyrdom	**0.24	**0.13	0.05
4-Overall score of attitude to sacrifice and martyrdom	**0.20	**0.27	**0.12
